Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 03 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Turning wet and windy on Monday. Improving slowly on Tuesday.

Today:
A largely dry and perhaps bright start but cloud will soon thicken, as a spell of wet and windy weather approaches from the west. The rain will become occasionally heavy during the afternoon and locally wintry over the western hills. Maximum temperature 9 deg C (48 deg F).

Tonight:
Heavy rain clearing eastwards early evening, followed by a brief lull and a few clear spells. Turning cloudy and showery later, wintry over high ground, with further strong winds. Minimum temperature 3 deg C (37 deg F).

Tuesday:
Unsettled and rather cloudy with showers or longer spells of rain gradually easing. Brightening up during the afternoon, followed by a dry and largely clear evening. Strong winds slowly easing. Maximum temperature 10 deg C (50 deg F).

Outlook for Wednesday to Friday:
Sunny spells and occasional showers through this period, wintry over hill tops. Showers perhaps more isolated on Thursday. Remaining cold for the time of year, with overnight frosts.
